THE DEEP SEA OF MADNESS

再稼働準備中の海底プラント「コフディース」で
次々と発生する、説明のつかない異常な事故。
調査チームの海上への一時帰還が決定するが、その最中、
何かにとり憑かれ食人鬼と化したハーシュバック博士が
門倉健吾や調査スタッフに襲いかかる。
そして同時に発生した「コフディース」圧壊の危機。
健吾は6000メートルの深海から生還する事ができるのか!?
そして、この暗黒に潜む"狂気"の正体は――!!?

生け贄を捧げ続けろ。太陽を求めるなら。

IN A CERTAIN PART OF THE PHILIPPINE SEA LIES THE DEEP-SEA RESIDENTIAL FACILITY COFDEECE. THIS LARGE FACILITY, LOCATED 6,000 METERS BELOW THE SURFACE, WAS CLOSED AFTER A "CERTAIN ACCIDENT". THAT, COMBINED WITH MARITIME TERRITORIAL DISPUTES BETWEEN JAPAN AND CHINA, CAUSED THE FACILITY TO BE ABANDONED FOR SOME TIME.

IN THE YEAR 201X, AN INVESTIGATION INTO WHETHER OR NOT THE FACILITY COULD BE ACTIVATED WAS BEGUN; HOWEVER, INEXPLICABLE THINGS BEGAN TO HAPPEN ONE AFTER ANOTHER. PLANS HAVE BEEN MADE FOR THE INVESTIGATION TEAM TO RETURN TO THE SURFACE, BUT WHILE THIS WAS HAPPENING PROFESSOR HERSCHBACH WAS POSSESSED BY SOMETHING, BECAME CANNIBALISTIC, AND ATTACKED KADOKURA KENGO AND OTHER INVESTIGATION STAFF MEMBERS!!
AND MEANWHILE, THE COFDEECE IS IN GROWING DANGER FROM RISING WATER PRESSURE...
